Who we are?

Tianjin TSK Mechanical Equipment Co., Ltd was established to be an outstanding manufacturer of undercarriage parts for construction machinery.

The undercarriage parts include:

- Track Bottom Roller
- Carrier Top Roller
- Front or Rear idler
- Sprocket
- Track Adjuster(Track Tensioner)
- Compact Track Loader Parts (CTL parts)

At Present, the most of our products are exported to Europe, Japan, USA, and Australia. All TSK undercarriage parts are made with detailed knowledge of the criteria and performance requirement in the market.

Why us?

- We have more than 20 years experience in this field and only focus on it.
- Assured by OEM oriented world-class production line, quality system and well-equipped Lab in the industry.
- Excellent Quality & Competitive Prices.
- Integrity, Customer Service, and Expertise.

The undercarriage parts we sold are equal in quality to OEM parts – yet you save 20-50% when you buy from us. Why pay higher prices for the same quality product?

We know quality is not from our saying, it is from your judgement. That's why we get great reputation for many years!

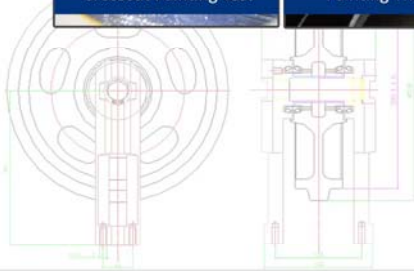

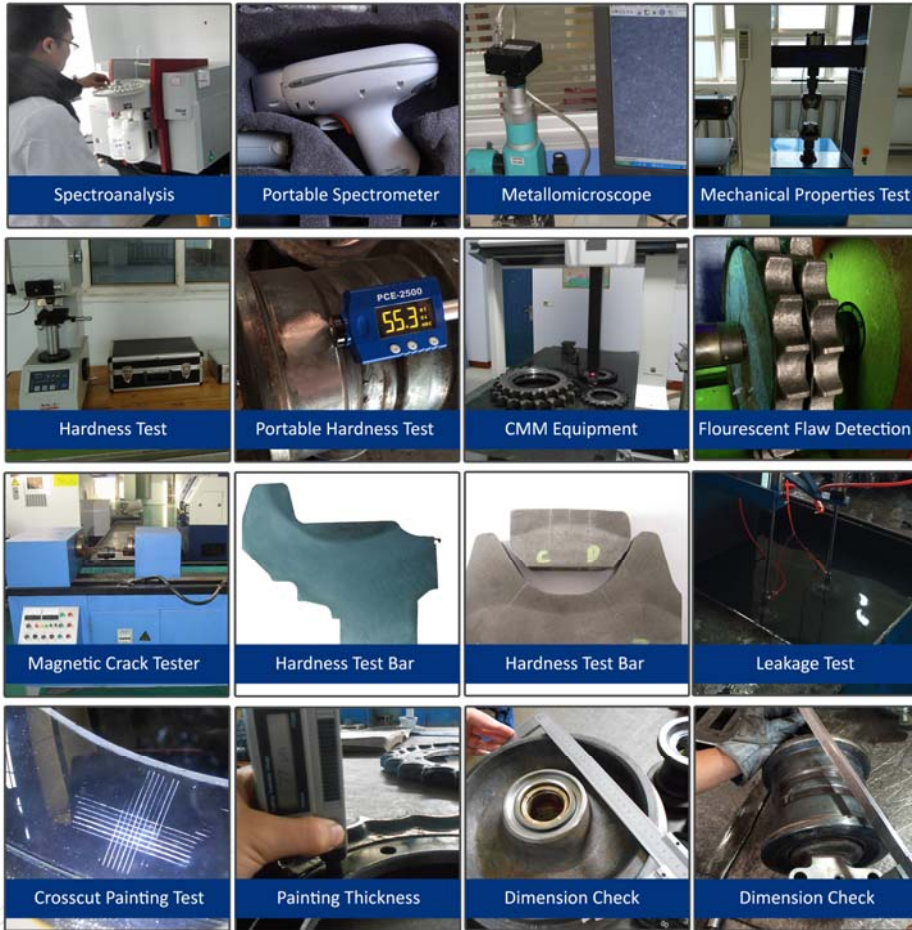

Where we are?

Tianjin TSK Mechanical Equipment Co., Ltd is located in Tianjin, one of the major port city of China, only one and a half hour all high way driving from Beijing International airport and 40 minutes driving to Tianjin International airport.

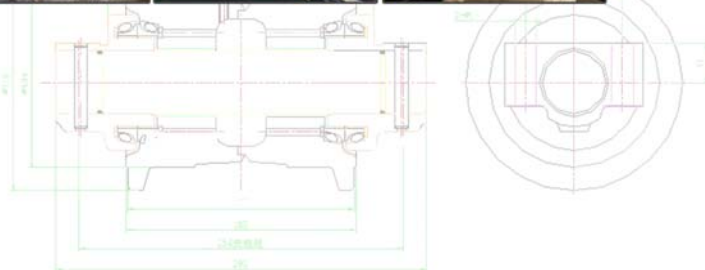

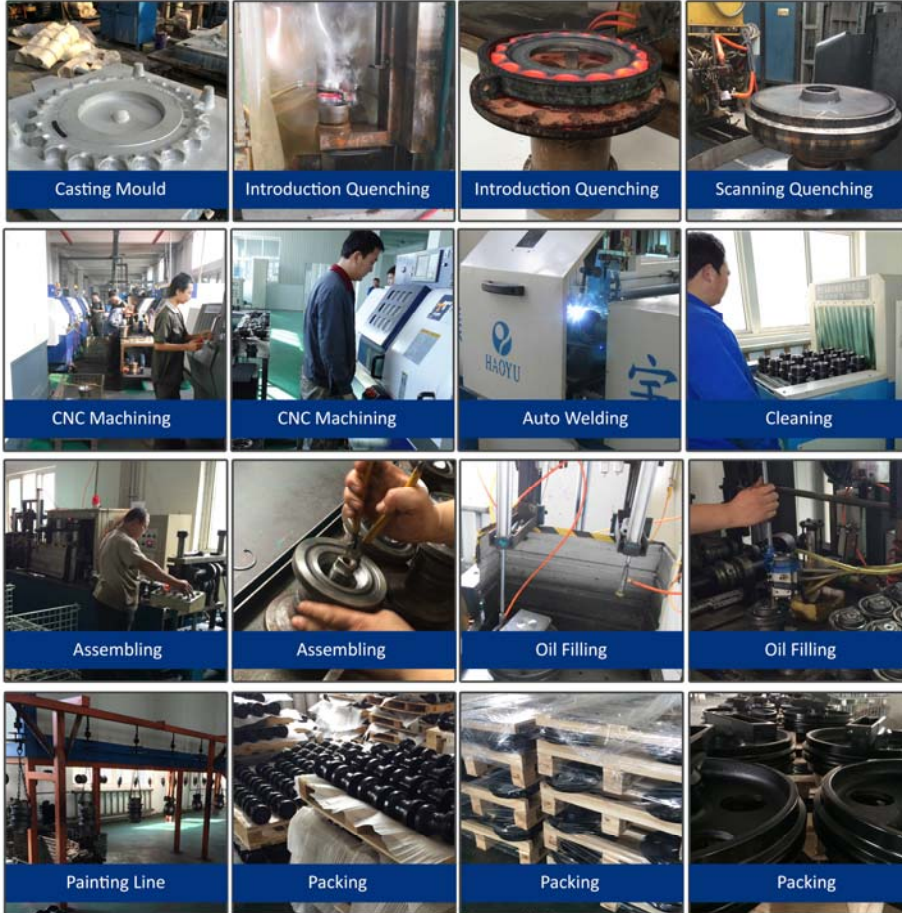

Taking care for all customers, offering quality products, listening to what customers want has always been our philosophy!
